NATIONAL NURSES WEEK 2010

Nurses: Caring Today for a Healthier Tomorrow.

Often described as an art and a science, nursing is a profession that embraces dedicated people with varied interests, strengths and passions because of the many opportunities the profession offers. Nurses work in emergency rooms, hospitals, school based clinics, and homeless shelters to name a few. Nurses have many roles from staff nurse

to educator, nurse practitioner to nurse researcher and serve all of them with passion for the profession and with a strong commitment to patient safety.

National Nurses Week is celebrated from May 6th, also known as **National Nurses Day**, through May 12th, the birthday of **Florence Nightingale**, the founder of modern nursing.
